Full particulars and card of admission at office.

FISHER & CO., 714 Chestnut St.

EXTRA INDUCEMENTS TO HOME BUILDERS

Lots in Olive Heights and Edgewood Park Will Be Placed on Market To-Day—\$100 Buried on One.

Two important residence subdivisions, Olive Heights and Edgewood Park, are to be placed on the market to-day for purchase by owners of attractive and modern improved home sites.

Olive Heights, near Olive street and south of Dune avenue, is being handled by Orson B. Scott & Co., Edgewood Park, 20 feet west of the city limits, near National street and reached by the National street car, is handled by the National street car.

Both subdivisions are directly in the line of improvement and progress, and are well situated for home building. The lots are of various sizes, from one-half acre to one acre, and are well situated for home building.

Edgewood Park, while surrounded by the country, is one of the most beautiful and desirable subdivisions in the city. The lots are of various sizes, from one-half acre to one acre, and are well situated for home building.

The subdivisions are directly in the line of improvement and progress, and are well situated for home building. The lots are of various sizes, from one-half acre to one acre, and are well situated for home building.

NATION TO RETAIN HOT SPRINGS LANDS

No Idea of Ceding Reservation Back to State of Arkansas.

HITCHCOCK SPEAKS FIRMLY.

Decision of Chancellor Cud that Federal Control Is Unconstitutional Not Regarded Highly.

Washington, June 23.—The Government has no idea of ceding back to the State of Arkansas one inch of the territory comprising the reservation at Hot Springs.

In these words Secretary Hitchcock tonight declared to the Republic reporter a report from Hot Springs that conditions there are such that the Government might withdraw its control.

The Secretary declared that such action is far from the intention of his department, and that every effort is being made to improve the Government reservation and add to its usefulness.

One of the greatest drawbacks to a clean government of the reservation has been the practice of "doctor drumming," which is said to result in unauthorized physicians and even persons who are not physicians at all, getting hold of the reservation and imposing upon them.

In this way, it is said, a bad impression has been carried over to foreign countries as persons from abroad go to Hot Springs to take the water treatment because it is advertised as being controlled by the Government.

At present an improvement society, composed principally of physicians, is co-operating with the Interior Department to bring about better conditions at Hot Springs. The society has been opposed to the reservation, and the matter has been taken into the State courts.

Secretary Hitchcock stated tonight that he had not the decision of Judge Cud, he said, however, that the department was not at all disturbed by the decision of the Supreme Court and frequently said that a State may cede its lands to the Government to improve the reservation.

It was stated at the Interior Department tonight that the reservation at Hot Springs has been placed in the hands of the Secretary Hitchcock, however, is still in the hands of the State, and the department is not at all disturbed by the decision of the Supreme Court.

It is known, however, that the visit of the Interior Department officer has been entirely satisfactory and that the reservation is in good condition. The department is not at all disturbed by the decision of the Supreme Court.

The text of the decision was written to the effect that the reservation is in good condition and that the department is not at all disturbed by the decision of the Supreme Court.

It is known, however, that the visit of the Interior Department officer has been entirely satisfactory and that the reservation is in good condition. The department is not at all disturbed by the decision of the Supreme Court.

FOUR AMERICAN YACHTS WIN RACES

Alisa Beats the Orion, Giving Germans a Thrill at Kiel Regatta—Goel's Swan Distances Competitors in Her Event.

Imperial Yacht Club, Kiel, Germany, June 23.—American yachts, either American owned or American built, made a fine showing to-day. There were four of them and each won the race of her class.

R. W. Goel's Swan made a bad start and was last over the line, but she went straight through the fleet, gave a beautiful example of seamanship, and got right up to the other boats.

The other boats finished four minutes forty-five seconds ahead of the Swan, which was second. The winner of the race was the Alisa, a 30-foot boat, built in America.

A 30-foot boat, built in America, won the race. The winner of the race was the Alisa, a 30-foot boat, built in America.

OF COURSE HE DID NOT STEAL THE DIAMONDS, BUT—

The story of THE VAN TWILLER DIAMONDS began in last Sunday's Republic—the most fascinating tale of the year. It will run but four weeks and every installment is of enormous interest. The story began in this way—

Alison, the daughter of Major Van Twiller, a retired American army officer, persuaded Nelson Wooster, who had become her fiance that evening, to open her father's safe and place in it a diamond necklace belonging to her mother, refusing to explain the reason for her request. The Major caught Wooster in the act of closing the safe, and accused him of theft and threatened him with arrest and disgrace. Wooster refused to mention Alison's name in connection with the incident. Van Twiller consented to postpone the exposure until the following day, so that Wooster could attend a little friend who was to undergo an operation at a hospital.

Mrs. Van Twiller entered the room as the men were in heat of conversation; but, knowing nothing of the dispute, insisted upon Wooster's taking part in the house party of the evening. The Major, to his disgust, was forced by the circumstances to consent.
